

Elevate Professional Endeavors with Powerhouse Workstations

Discover the unparalleled power of ThinkStation P3 workstations, equipped with cutting-edge processors and graphics tailored for mission-critical tasks. Designed to deliver high reliability and performance, these workstations ensure robust computing power for most demanding projects.

ThinkStation P360 Tower

Tested and certified to drive through heavy workflows, the ThinkStation Tower is designed to exceed your expectations from a conventional PC. With up to 12th Gen Intel Core i9 processors, run demanding applications without having to worry about performance and speed. From real-time rendering to 3D design and animation, the leading-edge graphics of up to NVIDIA RTX A5000 gives you the detail and visualization you need for powering breakthroughs across industries.

Its up to 128GB DDR5 4400MHz memory and dual M.2 PCIe Gen4 storage capacity let you simultaneously multitask, handle a massive amount of data and save time. Additionally, the up to 750W power supply (up to 92% efficiency) optimizes its lifespan and performance.

Accompanied by 7 front and 18 rear ports including Thunderbolt 4, this powerhouse of a workstation renders seamless expansion and connectivity to external monitors, drives and peripherals.

It has up to 128 GB memory (up to DDR5-4400 ECC+non-ECC) and up to one NVIDIA® RTX A5000 or two NVIDIA T1000 (discrete) along with Intel UHD Graphics 730/770. Plus, up to 2x 3.5" SATA HDD or 4x 2.5" SATA HDD storage makes it a powerful workstation that breezes through compute-intensive tasks or heavy-duty applications easily.
